

92518832533888

Title.

Operations

Zoom Pan

→ similar to others in terms of map navigation and zoom.

• filtering by country or year for pie chart.

Focus

the use of a histogram helps to show a direct comparison between pre- and post-covid

Discussion

Positives →

- replace bar with histogram
- allow for direct comparison

- not heaps of whitespace.

- draws weight from title to bottom w/

Negatives →

- not completely balanced

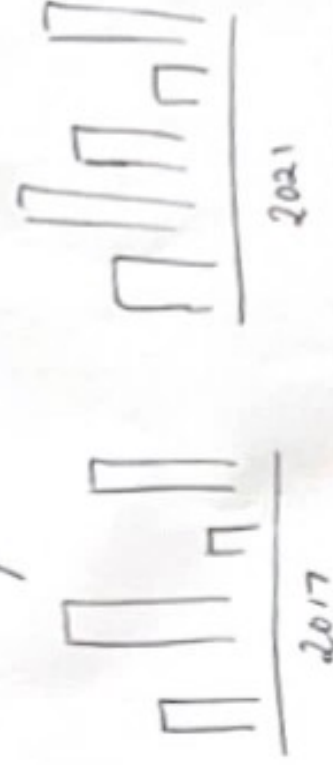

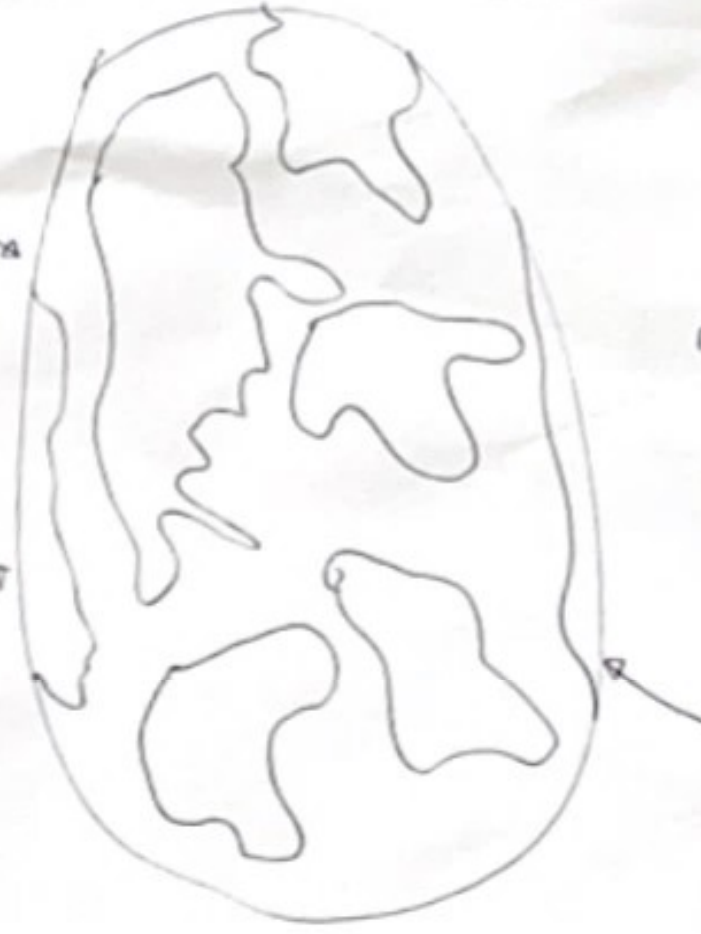

- too much / too busy.

operations

5/5 design sheet

Focus

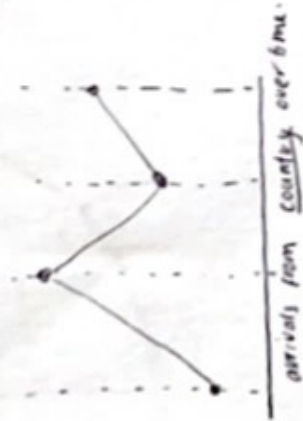

is to expand on
the focus here
the trends in the map
charts and the bar charts.
there is also comparison generated
through staying different
through each year's chart
to

discussion

- + balanced
- + map is central
- + attention falls to map.
- too much whitespace
- no interactivity
- too much happening

IDEAS

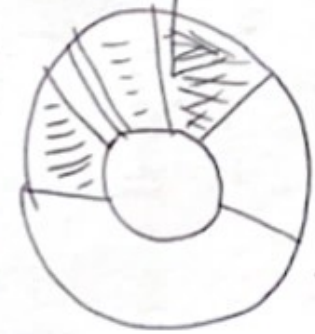

map selection, interesting

Sankey map

Show through arrows arrivals
↳ very visual similar to map of travel from each place.

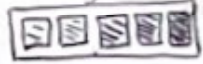

distribution of arrivals by country of citizenship

donut chart

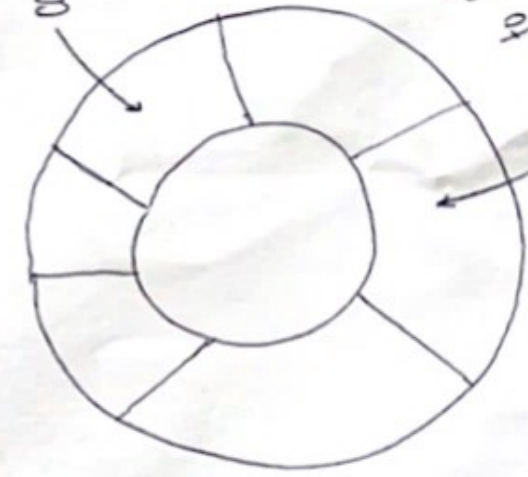

Arrivals in 2017

2017 arrivals
2021 arrivals
histogram

COMBINE & REFINE

Coordinate colours with countries from other idiom.

Sara Arora reports.

FILTER

arrivals in 2017

arrivals in 2021

2017

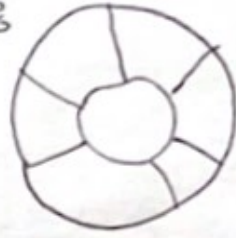

Countries arriving

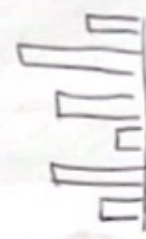

CATEGORISE

donut + pie chart

Circular element

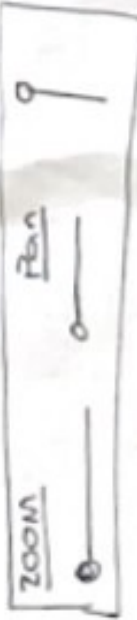

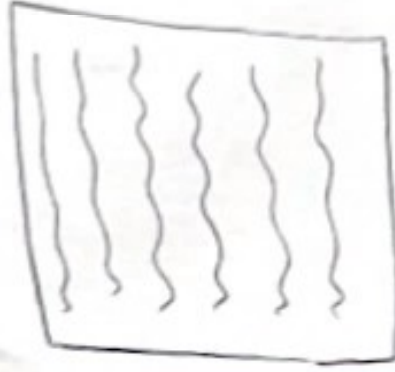

bar + histogram... arrivals by citizenship

Layout

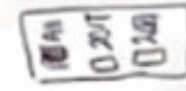

Title

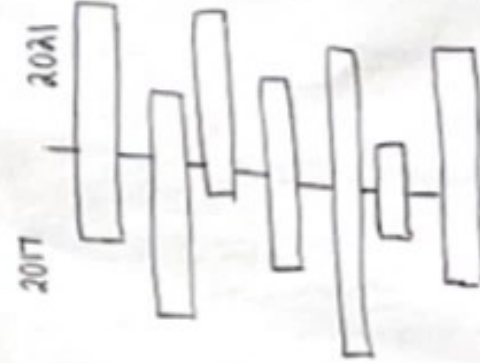

ARRIVALS INTO AUSTRALIA IN 2017

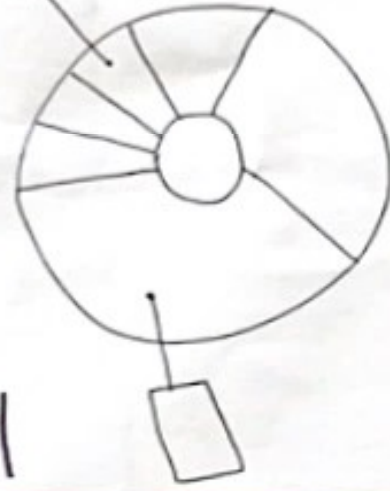

Arrival Composition

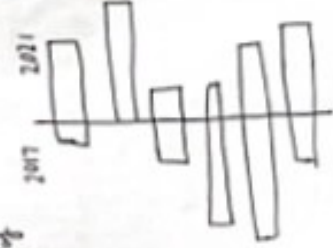

Arrivals by...

Focus

Colour saturation or luminance helps to depict patterns and arrivals

Shows the difference in country arrivals at two different time points.

Discussion

>> positive

- Circular shapes balance the weight on the page
- good, simple idioms.

negative

- bit messy with legends and interlocking
- very full with little free space.

2/5 design sheet

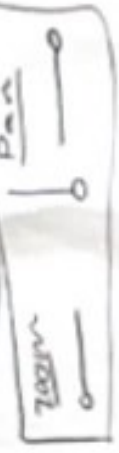

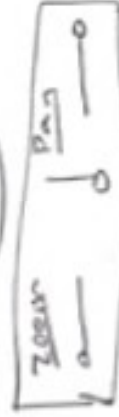

Operations

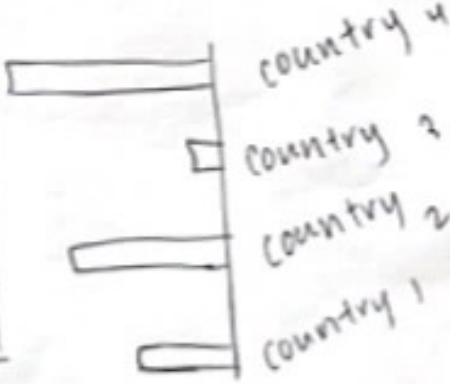

allows to alter arrivals make up by year

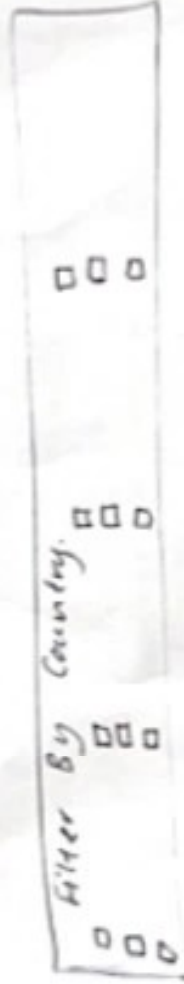

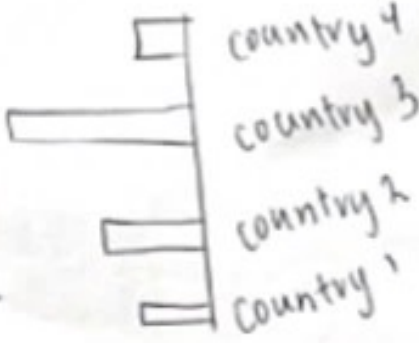

allows latitude and longitude shifting

arrivals in 2017

arrivals in 2024

Focus

main point of layout is to encourage comparison between stats from 2017 and 2024.

allows for direct comparison of colours and luminance at each colour.

operations

* similar to design sheet 2.

↓

allows for further investigation into trends

discussion

>> positive

- balanced.
- good visual lines.
- encourages comparison.

>> negative

- too many filters.
- very empty.
- too much white space.
